AMERICAN LITERARY COMPANY. HE object of this Company is to elevate the general standard of literature in the United States, by introducing into common use, an

improved uniform series of elementary books, and

stimulating native talent, by securing to authors

the publisher's profit on other than school books. The plan is, the organization of a company with sufficient capital to publish all books written by native authors, which may be approved by a committee of publication, at the risk of the company, who shall pay over to the authorall profit on the sales, after deducting the printer's charges and incidental expenses.

It is proposed to manufacture the paper used in printing, and thus to save the expense of dryguaranties, equal at least to twenty per cent.

A greater saving can be made by the employment of boys in composition, printing and binding. This, with the profits on periodicals, reprints, and elementary books, will secure to the

stockholders a good dividend. By requiring each clerk, foreman, papermaker, journeyman, proof-reader, and all others connect. ed with the Company, to hold a certain amount of stock proportioned to their salary, which, when it has not been paid in advance, will be liquidated by a sinking fund out of their earnings, and held subject to be assigned to the successor of each, upon a condition that such successor shall be allowed to pay for it by a deduction from his earn-ings, each person attached to the company be-comes a stockholder, and, to the extent of his stock, interested in the success of the institution. This feature will be rigidly enforced, and in case any one in the employment of the Company shall for any cause, be dismissed or leave its service,

Agencies will be established in the large cities. at the wholesale prices. Booksellers, and country merchants who sell books, now pay a profit DR PETERS VEGITABLE ANTI BILLIOUS to the paper maker, another to the printer, and a third to the publishers. Those who subscribe stock in this Company will receive books at their cost, rating the printing at the New York prices, to the amount of the stock so subscribed; it being understood that the dividend on their stock, to the amount of six per cent. per annum ouly, torpid condition, carrying off a large quantity of shall be charged as interest and that all dividend above six per cent. shall be paid to such stockholders. it, the printer's profit, and the publisher's profit, of the bowels, they act like a charm. In recent over and beyond their own profit as booksellers. The advantage to the Company is, that all the stockholders will be interested in getting work for the Company's office, and that each stockholder will always give a preference to the Company's paper and the Company's books over those of other makers and publishers. Such an arrangement with the booksellers will enable the sea sickness, by taking a portion or two of them Company, by means of a circular addressed to a few days previous to embarking on board the their correspondents, enclosing their report of the vessel, will be almost certain to escape it. 26,000 SUBSCRIBERS! Philadelphia Mirror.

HE splended patronage awarded to the philadelphia Saturday Courier, induces the editors to commence the publication, under the above title, of a quarto edition of their popular journal, so long known as the largest Family Newspaper in the United States with a list of near TWENTY-SIX THOUSAND SUB-SCRIBERS. The new feature recently introduced of furnishing their readers with new books of the best literature of the day, having proved so eminently successful, the plan will be continued. Six volumes of the celebrated writings of Captain Marryatt, and sixty-five of Mr. Brook's valuable Letters from Europe, have already been published without interfering with it's news and miscellaneous reading. The Courier is the largest and cheapest family newspaper ever issued in this country, containing articles in Literature Science, and Arts; Internal Improvement; Agriculture; in short every variety of topics usually introduced into a public journal. Giving full accounts of sales, markets, and news of the latest

It is published at the low price of \$2. For this small sum subscribers get valuable and entertaining matter each week enough to fill a common book of 200 pages, and equal to 52 volumes a year, and which is estimated to be read, weekly by at least two hundred thousand people, scat-tered in all parts of the country, from Maine to Florida, and from the sea board to the lakes .-The paper has been now so long established as to render it too well known to require an extended prospectus, the publishers, therefore, will do no more than refer to the two leading daily po-litical papers of opposite politics The Penn-sylvanian says—"The Saturday Courier is the argest, and one of the best family newspapers in the Union;" the other, the Inquirer and Daily Courier, says, "It is the largest journal published in Philadelphia, and one of the very best in the United States." The New York Star says—we know nothing more liberal on the part of the dormant talents of our country, than their unexampled liberality in offering literary prizes."

The Albeny Mercury of March 16th, 1836 says, "the Saturday Courier. is decidedly the best Family Newspaper ever published in this or any other country, and its value is duly appreciated by the public, if we may judge Its contents are agreeably varied, and each number contains more really valuable 'reading matter' than is published in a week in any daily paper in the Union. Its mammoth dimensions enable its enterprising proprietors, Messrs. Woodward & Clarke, of Phila delphia, to re-publish in its columes in the course of a year, several of the most interesting new works that issue from the British press; which cannot fail to give to it a permanent interest and render it worthy of preservation. To meet the wishes, therefore, of such of their subscribers as desire to have their numbers bound, they have de termined on issuing an edition of the Courier in the quarto form, which will render it much more convenient for reading when it is bound in a volume and thus greatly enhance its value."

THE QUARTO EDITION. Under the title of the PHILADELPHIA MIRROR, will commence with the publication of the Prize these Pills a fair trial, will ever after feel willing -that a society with more than five hundred Tale, to which was awarded the prize of \$100, written by Miss Leslie, editor of the splended Annual the Token, and author of Pencil Sketches and other valuable contributions to American Literature, A large number of songs poems tales, &c. offered in competition for the \$500 premiums, will add value and interest to the succeeding numbers, which will also be enriched by a story from Miss Sedgewick author of Hope Leslie. The Linwoods, &c., whose talents have been so justly and extensively appreciated, both

at home and abroad. This approved FAMILY NEWSPAPER is strictly neutral in religious and political matters

and the uncompromising opponent of quaker of every kind. MAPS. In addition to all of which the publishers intend furnishing their patrons with a series of engraved Maps, embraceing the twenty-five States of the Union, &c. exhibiting the situation, &c. of rivers, towns, mountains, lakes, the sea board internal improvements, as displayed in cannals, rail roads, &c., with other interesting and useful features, roads distances, &c. forming a complete Atlas for general use and information, handsomely executed, each distinct map on a large quarto sheet, at an expense which nothing but the splendid patronage which for six years past

has been so generously extended to them, could TERMS: The Philadelphia Saturday Courier is still continued in its large form at the same price as heretofore.
